Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

Assessment and completion

VALIDATION

During the guidance process the candidate prepares a portfolio, which is assessed by a committee. If the portfolio submitted by the candidate contains authentic, valid and adequate proof of the knowledge, skills and competences defined in the occupational standard, the committee may:

- validate the contents of the occupational standard in full,
- validate the contents of the occupational standard in part and define the knowledge, skills and competence to be verified,
- refuse to validate any of the contents of the occupational standard because the candidate has not provided proof of any of the knowledge, skills and competences defined in the occupational standard, in which case it will verify the occupational standard in full.

VERIFICATION METHOD

Practical assessment with oral defense.

Before the direct check, the candidate prepares and with an active connection or on an external disk/USB

key, etc. submits the product (animation of motion pictures) to the commission with the attached documentation:

- product: one animation of motion pictures for the chosen genre of animation (traditional animation, stop animation, computer animation...), where the candidate participated as an animator, with which the candidate demonstrates mastery of the animation process at the oral defense (storyboard, work and schedule plan, recording sheet, animation motion curve, animatics, placement of keyframes of each frame, continuous animation, animating with keyframes and intermediate frames, lip syncing, digital and analog lighting, standard formats for export and playback of animation). Animation of motion pictures with attached statement/evidence/reference/statement in check-out tip, etc. to prove co-authorship of the product, it should not be older than four years and
- documentation: animation process for motion picture animation, containing:
 - substantive description of the animation process for the selected type of motion picture animation and
 - technical implementation of the animation process for the selected type of animation of motion pictures: storyboard; animation work and schedule; plan for recording sheet; a plan for an animation motion curve, a proposal for the appropriate use of a software tool for performing animation; a plan for making animations; instructions for continuous animation, animates with keyframes (from pose to pose) and intermediate frames; in the case of speech, a plan for synchronizing lip animation (lip sync); digital and analog lighting; using standard formats for exporting and playing animation of motion pictures; graphic breakdown of the documentation (signatures to photographs, tables, graphs...) with references to literature, use of professional terminology, compliance with the norms of the Slovenian language, etc.

The candidate can attach the product/products to a personal collection folder (in the counseling process).

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating national vocational qualifications are entered in a register of providers maintained in the relevant database of the National Reference Point for Occupational Qualifications. Providers include: vocational schools, companies, inter-company training centres, adult education centres and chambers of commerce.
