

# Diplomirani inženir logistike (vs)/diplomirana inženirka logistike (vs)

---

## Selected qualifications

<b>Name of qualification</b>	Diplomirani inženir logistike (vs)/diplomirana inženirka logistike (vs)
<b>Translated title (no legal status)</b>	Bachelor of Applied Science in logistics
<b>Type of qualification</b>	Diploma prve stopnje (VS)
<b>Category of qualification</b>	Izobrazba
<b>Type of education</b>	Professional bachelor's education
<b>Duration</b>	3 years
<b>Credits</b>	180 credits
<b>Admission requirements</b>	<ul style="list-style-type: none"><li>• Matura or</li><li>• vocational matura; or</li><li>• school-leaving examination (prior to 1 June 1995) under any four-year secondary school programme.</li></ul>

## ISCED field

Field  
Transport, varnost, gostinstvo in turizem, osebne storitve

## ISCED subfield

subfield interdisciplinarne izobraževalne aktivnosti/izidi, pretežno transport, varnost, gostinstvo in turizem, osebne storitve

## Qualification level

SQF 7  
EQF 6  
First level

## Learning outcomes

The qualification holder will be able to:

(general competences)

- record and analyse problems and anticipate operational solutions in an organisation's logistics processes,
- master standard methods, procedures and processes in logistics processes,
- apply acquired theoretical knowledge in practice,
- demonstrate autonomy in professional work,
- demonstrate a commitment to professional ethics,
- resolve specific work problems in the field of logistics processes using standard technical methods and procedures,
- develop skills and expertise in the application of knowledge in their specific professional field,
- use ICT on a constant basis in their own specific professional field,

(subject-specific competences)

- resolve specific work problems in the field of logistics processes using standard technical methods and procedures,
- develop skills and expertise in the application of knowledge in their specific professional field,
- use ICT on a constant basis in their own specific professional field.

## Assessment and completion

Students' knowledge is assessed by means of practical exercises and seminar papers, and also via products, projects, performances, services, etc. and by examinations. Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

## Progression

In order to progress to the second year, students must have completed first-year course units totalling at least 46 ECTS credits, which must include the following subjects: Basics of Mathematical Methods I, Organisation of Logistics Processes, Basics of Logistics Techniques and Technologies, Basics of Systems Theory.

For students repeating the first year, the same conditions apply for progression to the next year as for students progressing regularly to the next year. For students continuing their studies following an interruption, the same conditions apply for progression to the second year as for students progressing regularly to the second year.

In order to progress to the third year, students must have completed all first-year course units and at least 38 credits, which must include examinations in the following subjects: Basics of Mathematical Methods II, Quantitative Modelling in Logistics.

For students repeating the second year, the same conditions apply for progression to the next year as for students progressing regularly to the next year. For students taking a break from their studies, the same conditions apply for progression to the next year as for students progressing regularly to the next year.

## Transitions

Second-cycle master's study programmes (SQF level 8)

## Condition for obtaining certificate

Students complete their studies when they have successfully met all prescribed requirements of a study programme.

## Awarding body

University of Maribor, Faculty of Logistics
