 - create an encouraging atmosphere as children express themselves through dance and relaxation games to strengthen relationships in the group,
 - critically evaluate and apply theories of childhood, development and learning in the planning, implementation and evaluation of educational work,
 - provide children with emotional security and encourage independence in accordance with their maturity,
 - create an encouraging play environment and positive mutual relations and solve problems effectively,
 - select appropriate linguistic signs and the appropriate codes depending on the position of speech and purpose of communication,
 - use the stylistic procedures of describing, narrating, retelling, summarising, reporting, explaining, defining, clarifying,
 - encourage children's speaking skills,
 - evaluate language situations in a bilingual or multilingual community, encourage children in the choice of appropriate language codes in such situations, serve as a linguistic model and a model of open and tolerant cooperation in a (multilingual) group,
 - select appropriate language signs for the production of an indirect speech act,
 - interpretive reading, narrating, declaiming, reciting,
 - develop reading culture, (pre-)reading skills and listening strategies in the pre-school phase and responding to a read text,
 - apply knowledge of the principles of symbolic play and its importance in the development of speech in children,
 - apply knowledge of literary genres and forms of children's literature that correspond to the emotional and cognitive capacities and level of aesthetic perception of pre-school children,
 - apply knowledge of concepts in education and their philosophical and historical foundations in the planning, implementation and evaluation of educational work,
 - use appropriate strategies to deal with inappropriate behaviour, aggression and conflict.

Assessment and completion

Students' knowledge is assessed by means of practical exercises and seminar papers, and also via products, projects, performances, services, etc. and by examinations. Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

In order to progress to the second year, students must complete 54 (90%) of the 60 credits available in the first year. To enrol in the third year, in addition to having completed all first-year requirements, students must have completed 54 of the 60 credits available in the second year.

Transitions

Second-cycle master's study programmes (SQF level 8)

Condition for obtaining certificate

Students complete their studies when they have successfully met all requirements of the study programme and completed and defended a diploma thesis.
