Umetnost

## Qualification level

SQF 5  
EQF 4

## Learning outcomes

Candidates will be able to:

- undertake all phases of work in cooperation and agreement with experts from the cultural heritage protection service and other contractors working in a property,
- pay due heed in their work to experts responsible for the protection and conservation of cultural heritage and consistently observe cultural heritage protection legislation,
- accept and review technical documentation and normative acts and other requirements of the cultural heritage protection service and plan their work accordingly,
- assess the causes and degree of damage to stone elements,
- protect the structure and its elements from damage during work,
- remove, install and transport stone elements,
- clean and maintain installed stone elements,
- use historical and modern methods for the treatment and installation of stone elements,
- make stone elements by hand and by machine; remove, work on and install stone elements and protect them after installation,
- supplement missing parts of stone elements,
- draw attention to unexpected finds and changes during the planning, preparation and implementation of the intervention,
- document photographically all key phases of the intervention.
- ensure the quality and effectiveness of one's own work in the work environment in accordance with the standards and principles of rational use of human and material resources,
- cooperate and communicate with colleagues, with those responsible and other experts for the protection of cultural heritage,
- lead a stonemasonry team in carrying out the renovation,
- maintain tools and other work equipment,
- ensure one's own safety in accordance with the assessed risks and protect health and the environment in accordance with regulations on occupational safety and health.

## Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

## Assessment and completion

## 1.VALIDATION

During the guidance process the candidate prepares a portfolio, which is assessed by a committee. If the portfolio submitted by the candidate contains authentic, valid and adequate proof of the knowledge, skills and competences defined in the occupational standard, the committee may:

- validate the contents of the occupational standard in full,
- validate the contents of the occupational standard in part and define the knowledge, skills and competence to be verified,
- refuse to validate any of the contents of the occupational standard because the candidate has not provided proof of any of the knowledge, skills and competences defined in the occupational standard, in which case it will verify the occupational standard in full.

## 2.METHOD OF VERIFICATION

- Practical verification with an oral presentation.

## Condition for obtaining certificate

The candidate demonstrates that he/she achieves the knowledge, skills and competencies specified in the catalogue of professional knowledge and skills standards.

## Awarding body

Providers of procedures for identifying and validating NVQs are entered in a register of providers maintained in the collection of the national information centre for vocational qualifications. These are: vocational schools, businesses, B2B training centres, adult education centres and chambers of commerce.
