subfield izobraževalne znanosti

## Qualification level

SQF 8  
EQF 7  
Second level

## Learning outcomes

The qualification holder will be able to:  
(general competences)

- apply theoretical and other knowledge in complex, unpredictable and diverse circumstances,
- integrate theory and practice,
- evaluate own practice and devise new theoretical concepts,
- plan and carry out research while showing the ability to seek out and create new sources of knowledge,
- provide technical criticism while showing responsibility and initiative,
- lead organisations in the field of education,
- collaborate with the working and social environments and organise teamwork,
- plan and maintain lifelong learning,
- demonstrate ethical reflection and establish professional ethical standards,

(subject-specific competences)

- demonstrate thorough knowledge and understanding of the position of education science as a scientific discipline, and of its basic concepts,
- autonomously plan research processes and conduct research projects,
- demonstrate thorough knowledge of didactic, pedagogical and pedagogical-psychological theoretical concepts and apply them in practice,
- plan, implement and evaluate pedagogical measures,
- communicate effectively in pedagogical terms with individuals and groups,
- demonstrate mastery of the theoretical concepts and programmatic starting points of school counselling work,
- demonstrate thorough understanding and knowledge of strategies for working with marginalised groups,
- demonstrate advanced understanding and critical evaluation of the broader social and economic framework of education activities,
- participate in the updating and development of school curricula, and be involved in research and development activities organised at the school, local, national and international levels,
- apply pedagogical theories to the resolution of specific work-related problems.

## Assessment and completion

Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

## Progression

In order to progress to the second year, students must complete at least 48 ECTS credits from the curriculum of a single-subject study programme.

## Transitions

Third-cycle doctoral study programmes (SQF level 10)

## Condition for obtaining certificate

Students complete their studies when they have successfully met all requirements laid down by the study programme and accumulated at least 120 ECTS credits.

## Awarding body

University of Maribor, Faculty of Arts
