- follow the organization's values, make others aware of innovations and responsibilities in the field of digital accessibility, and act ethically and in accordance with the sustainable development of society,
- cooperate with competent and technical colleagues in planning the installation, management and maintenance of hardware and software information and communication equipment and services for ensuring digital accessibility and implement the plan,
- coordinate the provision of assistance to users and the implementation of assistance,
- comply with safety and environmental standards and regulations at work.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

Assessment and completion

VALIDATION

During the guidance process the candidate prepares a portfolio, which is assessed by a committee. If the portfolio submitted by the candidate contains authentic, valid and adequate proof of the knowledge, skills and competences defined in the occupational standard, the committee may:

- validate the contents of the occupational standard in full,
- validate the contents of the occupational standard in part and define the knowledge, skills and

competence to be verified,

- refuse to validate any of the contents of the occupational standard because the candidate has not provided proof of any of the knowledge, skills and competences defined in the occupational standard, in which case it will verify the occupational standard in full.

METHODS OF VERIFICATION OF VOCATIONAL KNOWLEDGE AND SKILLS

- written test (intended to test knowledge of legislation and regulations, technical standards of digital accessibility, theoretical knowledge in the field of digital accessibility needs of persons with various disabilities, etc.) and
- practical examination with oral defence

The candidate first takes a written test, on which he must score at least 60%.

Ratio between verification methods:

Written test 50%
Practical examination with oral defence 50%

50 %
50 %

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating NVQs are entered in a register of providers maintained in the collection of the national information centre for vocational qualifications. These are: vocational schools, businesses, B2B training centres, adult education centres and chambers of commerce.
