Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

Assessment and completion

VALIDATION

During the counselling process, the candidate prepares a portfolio. The relevant committee assesses the portfolio and validates catalogue content in part or full. If the committee is unable to recognise all catalogue content, it assigns tasks to the candidate for verification.

VERIFICATION METHOD

- In the practical assignment candidates demonstrate proficiency in the use of tools for the graphic processing of website materials and/or web design tools and proficiency in work with existing websites (assessment, improvement of graphics and/or inclusion of elements).
- The oral presentation consists of a presentation and explanation of the submitted websites and practical assignment and open thematic questions that give candidates the opportunity to demonstrate their knowledge and understanding of technical content.

A candidate may be exempted from the practical exercise at the committee's discretion.

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating national vocational qualifications are entered in a register of providers maintained in the relevant database of the National Reference Point for Occupational Qualifications. Providers include: vocational schools, companies, inter-company training centres, adult education centres, chambers of commerce, etc.
