- work in such a way as not to endanger their own health and safety or those of others in their working environment or pollute the environment,
- in communication with the various stakeholders they encounter in their work, observe business ethics.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#) .

Assessment and completion

VALIDATION

During the guidance process the candidate prepares a portfolio, which a committee then assesses, validating catalogue content in part or in full. If the committee is unable to validate all contents of the catalogue, it assigns tasks to the candidate for verification.

VERIFICATION METHOD

Candidates complete a practical assignment in the field or in a simulated situation to demonstrate their proficiency in the required vocational competences according to the requirements of the occupational standard and technical documentation. The completion of the practical assignment is accompanied by an oral presentation.

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating NVQs are entered in a register of providers maintained in the collection of the national information centre for vocational qualifications. These are: vocational schools, businesses, B2B training centres, adult education centres and chambers of commerce.

Currently no providers.
