Learning outcomes

Candidates will be able to:

- organise, plan and analyse own work,
- make rational use of energy, material and time,
- carry out a preventive inspection of a lift before putting it into movement,
- operate road vehicles equipped with load-lifting apparatus,
- operate truck-mounted cranes designed primarily for loading and unloading vehicles,
- operate road cranes for greater lifting heights (up to 50 m) and truck-mounted cranes with telescopic lifting apparatus,
- select and switch between appropriate means for the transfer of cargo,
- communicate with management and co-workers,
- use computer equipment and software,
- ensure health and safety at work and protection of the environment.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

Assessment and completion

VALIDATION

During the guidance process, the candidate prepares a portfolio. The relevant committee assesses the portfolio and validates catalogue content in part or full. If the committee is unable to recognise all catalogue content, it assigns tasks to the candidate for verification.

VERIFICATION METHOD

Written test and practical verification with an oral presentation.

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating national vocational qualifications are entered in a register of providers maintained in the relevant database of the National Reference Point for Occupational Qualifications. Providers include: vocational schools, companies, inter-company training centres, adult education centres, chambers of commerce, etc.

Currently no providers.
