EQF 4

Learning outcomes

Holders of a master craftsman qualification will be able to:

- carry out bricklaying work to master craftsman standard,
- build all types of structural elements using bricks made of various materials,
- make or erect shuttering for scaffolding and supports,
- make concrete steps of any design,
- repair and renovate all types of final bricklaying work and structural elements,
- manage and organise operations in the workshop and on the building site,
- carry out technological and operational preparations for work,
- obtain work, make calculations and estimates and draw up bills for work done,
- assure comprehensive quality of products or services,
- recruit staff and plan their development,
- train co-workers, apprentices and students in the work process,
- implement occupational safety regulations and other regulations governing construction,
- use prevention and take action in the case of accidents at work, fires and other unforeseen circumstances.

Accessors

Members of examination boards for each examination unit separately. Appointed by the minister responsible for education. Appointment may be renewed every 4 years.

Assessment and completion

Candidates sit a master craftsman examination, which consists of four units:

- a practical unit,
- a technical and theoretical part,
- a business and economics part,
- an education part.

Condition for obtaining certificate

Candidates must pass all four units of the master craftsman examination to receive the title of master craftsman.

Awarding body

Chamber of Crafts and Small Business of Slovenia
