Welcome

UPDATED WITH 2021 DATA

The mobility scoreboard for IVET is a tool for assisting policy-making in the broad area of international learning mobility in IVET.

It is intended for:

- **policy-makers** (both at national and EU levels);
- **'mobility users'**, i.e. IVET learners' organisations and mobility organisers (IVET institutions, mobility agencies, companies involved in mobility, guidance institutions, staff involved in organising mobility activities);
- **experts, researchers, and the wider public.**

Slovenia: national discussion on microcredentials

NEWS on VET Slovenia

On 10 May 2022, the Institute of the Republic of Slovenia for VET (CPI), in collaboration with European Commission and Cedefop, organised a 1-day conference for national stakeholders to discuss the future of microcredentials in national qualifications system.

The main aim of the conference was to encourage discussion on the role and purpose of microcredentials in Slovenia, thus contributing to the development of national education strategies in response to technological, economic, environmental and social challenges.
